

Symposium Content Tags

Content Tags for Your Session Description – Choose up to Five Tags

In order to facilitate our attendees in the search for specific content, we ask you to include content tags in your session description. Using the list below, please incorporate at least three and a maximum of five content tags at the end of your session description. You can simply copy and paste 3-5 content tags from the list below and paste them at the end of your session description. Be sure to include the hashtag (#)!
