

One Health Global Alliance and the American Society of Tropical Medicine and Hygiene Formalize Strategic Partnership

The One Health Global Alliance (OHGA) and the American Society of Tropical Medicine and Hygiene (ASTMH) are pleased to announce the signing of a Memorandum of Understanding (MOU) under which ASTMH will become an inaugural member of OHGA's On-Demand Global Catalyst. The partnership brings together two organizations committed to strengthening the global health community by connecting expertise, institutions, and opportunities across disciplines and geographies.

As an inaugural member of the On-Demand Global Catalyst, ASTMH will join OHGA's growing network and engage with a platform designed to facilitate on-demand connections to global health expertise, institutions, learning opportunities, and potential collaborations. ASTMH's participation will contribute to the Catalyst's broader vision of making global expertise and collaboration more accessible while strengthening connections between the global and local levels.

Beyond Catalyst membership, the MOU establishes a framework for OHGA and ASTMH to explore broader areas of engagement, including joint initiatives, knowledge sharing, professional and workforce development, and opportunities to connect and strengthen their respective networks. Together, we look forward to advancing global collaboration and creating new pathways for meaningful engagement across the global health community.
