

Mobile App Instructions

We're offering early access so you can start exploring the app today. Additional information and features will be added as we get closer to the Annual Meeting.

Explore the Meeting App

Use the Meeting App to:

- Search the full Annual Meeting program, including scientific sessions, posters and presenters.
- Search by speaker, abstract, topic or session type.
- Filter sessions designated as Educational Content.
- Explore sponsors and exhibitors.
- Find topics using content tags (e.g., #malaria).
- Network with fellow attendees.
- Access maps, alerts and your personal schedule.
- Rate sessions and submit questions directly through the app.

Available Now

- View sessions, 2026 exhibitors and sponsors
- View center maps and room locations
- Network with attendees who have published their profiles
- Upload photos*

**By uploading a photo, you grant ASTMH permission to use your image in promotional and marketing materials related to the Annual Meeting.*

Download the App

For first-time downloads or if you previously uninstalled the app. If it is already installed, see the next section.

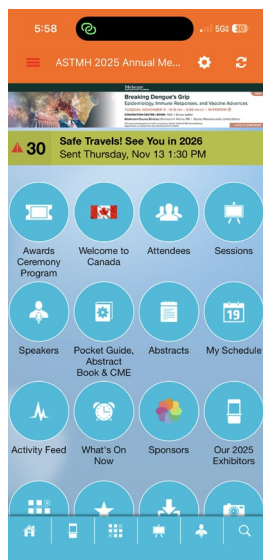

- 1. Open your phone's camera.** Point it at the QR code.
- 2. Tap the link.** Open the ASTMH Events download page.
- 3. Open ASTMH Events.** Tap ASTMH Events in the lower-right corner.
- 4. Download the meeting.** Select ASTMH 2026 Annual Meeting under Upcoming Events.

If You Already Have the App

Depending on the last page you viewed, follow one of the paths below.

From the 2025 Meeting Home Screen

- Tap the gear icon to open Settings.
- Select Exit to Past Meetings.
- Tap ASTMH Events in the lower-right corner.
- Select ASTMH 2026 Annual Meeting to download.

From the ASTMH Events Screen

- Tap ASTMH Events in the lower-right corner.
- Select ASTMH 2026 Annual Meeting to download.

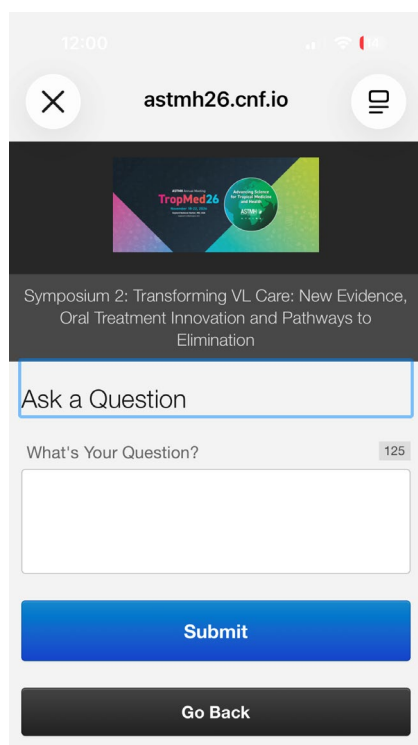

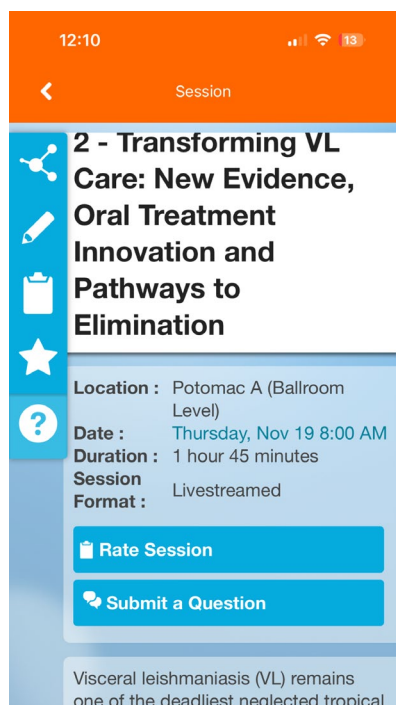

Create Your Profile

Once you have downloaded and opened the 2026 ASTMH meeting app, create your profile to connect with other registered attendees.

- 1. Open the app.** Launch the ASTMH Annual Meeting app.
- 2. Open the menu.** Tap the three horizontal lines (≡) in the upper corner.
- 3. Select My Profile.** Open your profile settings.
- 4. Tap Edit or the pencil icon.** Edit your profile.
- 5. Enter your information.** Add your name, job title, organization, email and preferably a photo.
- 6. Tap Save.** Save your information.
- 7. Publish your profile.** Allow other attendees to view it and connect.

Note: You can update or hide your profile at any time. Networking is available only with attendees who have also published their profiles.

App Features

NEW for TropMed26!

Submit Questions Right from Your Phone

No more standing in line or waiting for a microphone!

Open the session you're attending and tap Submit a Question. A question form will open. Type your question in the text box, then tap Submit to send it directly to the session moderator.

Your questions. Your phone. More opportunities to engage!

Rate a Session

After attending a session, tap Rate Session and complete a brief evaluation. Your feedback helps ASTMH improve future Annual Meeting programming.

How It Works

1. Open the session in the app.
2. Tap Submit A Question or Rate Session.
3. Complete the brief form and submit.

Finding the Right Sessions

Sessions Designated for Educational Content

Educational sessions offer didactic instruction on specialized topics, public policy, and overviews of novel diseases and therapeutics. Look for sessions labeled Educational Content in the Pocket Guide or use the Educational Content filter in the app.

Use Content Tags to Find What Matters

Content tags appear at the end of Symposia and Scientific Session descriptions. Search hashtags such as #dengue or #globalhealth in the app search bar.

More to Come

Meeting organizers are continuing to work on the scientific program. As additional material becomes available, updates will be shared via email, social media, the ASTMH website and push notifications.
